

INTRODUCTION

The logo for Ultra Safety is positioned in the upper right quadrant. It features the word "ULTRA" in a bold, yellow, sans-serif font with a black outline, stacked above the word "SAFETY" in a bold, black, sans-serif font with a white outline. The background of the entire page is a complex, abstract graphic composed of various geometric shapes, lines, and colors including black, red, yellow, and white, creating a technical and industrial aesthetic.

**ULTRA
SAFETY**

Ultra Safety is a one-stop-shop for protective equipment and apparel requirements for any workforce. Our product portfolio includes the most recognized brands in the industry, allowing flexibility and choice for the customer. Working closely with the customer, we offer a wide range of bespoke product and service solutions designed to meet the requirements of any industry.

We assist our customers in implementing comprehensive programs combining HSE as well as Corporate Image and Employee Comfort-improving performance and corporate identity.

We provide this service in fully integrated one-stop shop environment for all work wear and PPE requirements eliminating the need for multiple suppliers and costs associated with fragmented supply chains.

We provide a “from stock service” for all key customers, including man pack shipment to individual users-cutting issue and management costs for the customer. We also have additional services such as computerized embroidery, customized emblems and silk screening.

We provide integrated technology solutions to streamline supply transactions driving out costs from business process.

Ultra Safety for General Trade LTD

Knee Pads

ECONOMY RUBBER KNEE PAD

Size: One Size

Manufacturer: Occunomix

Part Number: ASA 124

Detail:

Our most economical knee pad! This soft, lightweight yet sturdy knee pad protects knee against the pressures of kneeling on hard or rough surfaces. The one piece molded impact resistant rubber pad with adjustable strap keeps knee cushioned and dry against wet surfaces. Nubby outer surface provides anti-slip benefits.

Sold in Pairs.

HARD PLASTIC CAP KNEE PAD

Size: One Size

Manufacturer: Occunomix

Part Number: ASA 125

Detail:

Heavy duty protection against injuries often sustained in rigorous working conditions as a result of constant kneeling. These lightweight pads have hard caps made of abrasion resistant plastic, forming an ergonomic bubble of protection. The soft foam padding and adjustable straps ensure hours of comfortable, productive work.

Hook and loop closures keep pad in place.

Sold in Pairs.

KNEEPADS

PLASTIC CAP KNEE PAD W/ BUCKLE CLOSURES

Welding Garments

WELDING GARMENTS

Color

MIG WEAR WELDERS JACKET

MIG100 includes three panels in back for a tailored, professional, more comfortable look and feel.

MIG WEAR Jacket uses only 9.5 oz/sq yd, 100% FR treated cotton sateen fabric that is independently certified to meet ASTM F1506-94, before and after 50 industrial washings.

Jacket also meets EN533, EN531, and EN470. Non-reflective snaps at sleeves help prevent sparks from entering up sleeves and in front for a safe and secure closure. And, you'll find a handy inside lapel pocket, for small items. All this and lower prices too.

Size: S-5X

Manufacturer: OCCUNOMIX

Part Number: ASA MIG100

Color

MIG WEAR FR WELDERS PANTS

MIG WEAR Welding Pants are made with 9.5 oz/sq yd, 100% FR treated cotton sateen fabric, independently certified to meet ASTM F1506-94 before and after 50 industrial washings.

Also meet EN533, EN531, and EN470.

Pants include four pockets, zipper fly, belt loops and non-reflective black snap.

Size: 30 to 48 and 30", 32" and 34" lengths.

Manufacturer: OCCUNOMIX

Part Number: ASA MIG200

WELDING GARMENTS

MIG WEAR FR WELDERS APRON

Protect welder's front middle body to thighs with 24" x 36" length MIG WEAR FR Apron with adjustable neck strap.

Independently certified to meet ASTM F1506-94: After Flame = 0, After Glow = 0, Average Char = 2". MIG WEAR Apron also meets EN533, EN531, and EN470. 9.5 oz/sq yd, 100% FR treated cotton sateen fabric offers cool comfort, durability and washability of at least 50 industrial washing while maintaining FR protection.

Size: One Size

Manufacturer: OCCUNOMIX

Part Number: ASA MIG300

Color

MIG WEAR FR WELDERS SLEEVES/ PAIR - REGULAR ELASTIC

MIG WEAR Welders Sleeves are a full 18" long with simple elastic at top and wrists.

Made of 9.5 oz/sq yd, 100% FR treated cotton sateen fabric, independently certified to meet ASTM F1506-94, before and after 50 industrial washings, protects against sparks, radiant heat, grinding chips and minor contact burns. Sleeves also meet EN533, EN531, and EN470.

A great complement to the 24" x 36" MIG WEAR Apron. Pair.

MIG WEAR FR WELDERS COVERALLS

MIG WEAR Coveralls feature 9.5 oz/sq yd, 100% cotton sateen FR fabric independently certified to meet ASTM F1506-94, before and after 50 industrial washings.

MIG WEAR FR Welder's Coveralls also meet EN533, EN531, and EN470.

Designed with an action swing back, an elastic waist, and a snap and zipper (two headed) front closure, for comfort and protection. Coveralls include handy pockets: two chest (one pocket and one pen), two back, two front, two front pass-throughs with snaps and one tool pocket for convenience. All snaps are non-reflective.

Size: S-5X

Manufacturer: OCCUNOMIX

Part Number: ASA MIG600

Color

The background features a stylized, abstract illustration of industrial machinery. The design is composed of various geometric shapes and lines in shades of red, yellow, and black. The machinery appears to be a complex assembly, possibly a conveyor system or a manufacturing component, with various gears, shafts, and structural elements. The overall aesthetic is modern and technical.

Color

TYVEK DISPOSABLE COVERALL

DuPont Tyvek® suits offer high strength and provide an excellent barrier in light splash situations as well as many dry particulates, including asbestos, lead dust, and even radioactive dusts.

Some other applications include general maintenance, food processing, and painting.

Tests show that DuPont Tyvek® maintains its level of barrier protection after being subjected to abrasion and flexing.

DuPont Tyvek® garments retain their shape and will not stretch out after kneeling and bending. No other material on the market has the superior protective properties, comfort and endurance of DuPont Tyvek®.

- Hood, Zipper front, storm flap, adhesive strip closure, elasticated waist, wrists & ankles, overtaped seams.
- Manufactured for the Nuclear industry, to EN1073-2.
- With its overtaped seams this suit is ideal for toxic dry particulate environment or where liquid penetration through seams should be avoided.
- Only Type 4 nonwoven suit, take full advantage of Tyvek unique inherent barrier protection as seams are tight
- Electostatic protection according to EN1149-1
- Best solution for mask wearers, best fit for respirators.

GEORGIA GIANT SAFETY TOE WORK BOOTS

KEY FEATURES

- Soggy Brown Giant – Full grain leather –Molds to your foot
- Repairable Goodyear welt construction – Replaceable outsole, solid footing, long lasting
- High performance lining – Durable, dry comfort
- Steel shank – Solid stable work platform
- Covered cushion insole – comfort underfoot
- EVA midsole – Comfort
- Oil resistant bumper guard – Long life, low maintenance
- Unlined quarters
- Internal padded collar

Manufacturer: GEORGIA

Part Number: G6374

Sizes: 6 to 13W

GASTON MILLE HOT CUMIN BGS3 SRC

SOLE:

- Polyurethane dual density sole
- Density : 1.13
- Thickness : 5 mm
- Height of cleats : 2.5 mm
- Textile antiperforation midsole
- Resistance to :
 - * abrasion (lost in volume) 12 mm³
 - * tearing : 10.4 kN/m
 - * flexion (after 30 000 cycles) : >45°
 - * oil and petrol (variation in volume) 0 %
- Slip resistance : SRC

UPPER:

- Full-grain greased leather
- Non woven calendered lining - ANTIPERSPIRATION AND ANTIBACTERIAL

USE:

- Adapted for smooth and greasy soils
- Food industry
- Construction and public works
- All industries

PLUS:

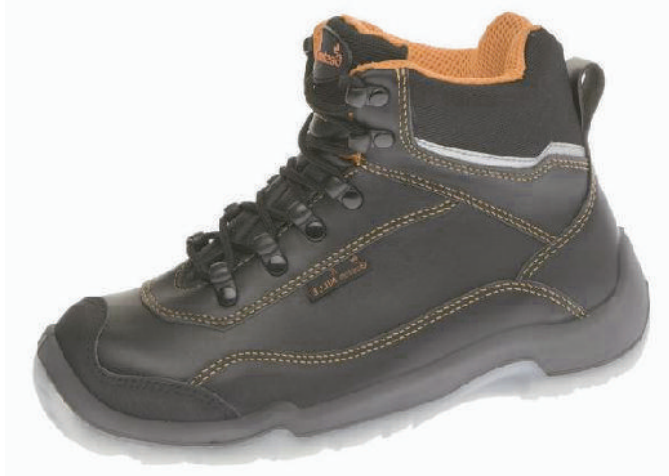

- Sole with fluids drainage system, integrated foot arch support, profiled heel for scale, antitwisting system and shock absorber.

Sizes: 39 to 47

Manufacturer: GASTON MILLE

Part Number: Hot Cumin BG S3 SRC

CARVI BG S3 SRC

SOLE:

- Polyurethane dual density sole
- Density : 1.13
- Thickness : 5 mm
- Height of cleats : 2.5 mm
- Textile antiperforation midsole

UPPER:

- Full-grain leather
- 3d fabric lining - ANTIPERSPIRATION AND ANTIBACTERIAL
- Resistance to :
 - * abrasion (lost in volume) 12 mm³
 - * tearing : 10.4 kN/m
 - * flexion (after 30 000 cycles) : >45°
 - * oil and petrol (variation in volume) 0 %
- Slip resistance : SRC

PLUS:

- Sole with fluids drainage system, integrated foot arch support, profiled heel for scale, antitwisting system and shock absorber.
- Metal free

- Adapted for smooth and greasy soils
- Food industry
- Construction and public works
- All industries

Sizes: 39 to 47

Manufacturer: GASTON MILLE

Part Number: Carvi BG S3 SRC

HOT MOON SG S3 SRC

USE:

- Construction and public works
- Transport
- Distribution
- Food-processing industry
- Geomembrane

SOLE:

- PU/TPU
- Density : 1.13
- Thickness : 5 mm
- Height of cleats : 2.5 mm
- Textile antiperforation midsole
- Resistance to :
 - * abrasion (lost in volume) 12 mm³
 - * tearing : 10.4 kN/m
 - * flexion (after 30 000 cycles) : >45°
 - * oil and petrol (variation in volume) 0 %
- Slip resistance : SRC

UPPER:

- Nubuck full-grain leather and microventilated mesh
- 3D mesh lining - antiperspiration and antibacterial

PLUS:

- Very light and flexible sole
- Anti-slip system, anti-abrasion, minigrip pads, anti-twisting, integrated foot arch support and shock absorber
- Metal free

Sizes: 39 to 47

Manufacturer: GASTON MILLE

Part Number: Hot Moon SG S3 SRC

UNION S3

SOLE:

- Dual density polyurethane
- Coef.d 'grip on smooth floors and industrial fat: 0.30
- Density: 1.1
- Thickness: 8 mm
- Abrasion resistance (volume loss): 18 mm³
- Tear Strength: 9 kN / m
- Bending strength (after 30 000 cycles): 0 mm
- Resistance to oil: 3%

STEM:

- Leather fat very high quality waterproof and oil resistant.
- Lining calendered non-woven airy antisudation and antifungal.

PLUS:

- Comfort insole, antisudation and antifungal.
- Soufflé and protects ankles in Cordura®.
- Ski and side bumpers front and rear for effective protection against any shocks.
- Ear steel extra wide for more comfort.
- Coefficient of adhesion élevé. Propriétés very static.

Sizes: 39 to 47

Manufacturer: GASTON MILLE

Part Number: Union S3

RIPPER S3

SOLE:

- Dual density polyurethane
- Coef. grip on industrial floors smooth and fat: 0.30
- Density: 1.1
- Thickness: 8 mm
- Height of studs: 5.2mm
- Abrasion resistance (volume loss): 18 mm³
- Tear Strength: 9 kN / m
- Bending strength (after 30 000 cycles): 0 mm
- Resistance to oil: 2%
- KEVLAR® midsole.

STEM:

- Leather Waterproof full grain nubuck and oil repellent and Cordura®.
- Lining 'cooling' Coolmax® quilting and Cordura® gusset.

PLUS:

- Special Agent Safety: the label affixed to the tongue or the bellows of the boot security compliance comprehensive specifications AGENT FOR HEALTH.
- Antistatic.
- Comfort insole, antisudation and antifungal.
- Ear steel extra wide for more comfort and puncture-proof Kevlar® outsole and insert special anti - Felt heat with aluminized face soil.
- Kevlar® outsole: protection of the total area of the foot, insulation undetectable by metal detector, lighter, very flexible and completely flexible.

Sizes: 39 to 47

Manufacturer: GASTON MILLE

Part Number: Ripper S3

ROCKY IRONCLAD WATERPROOF WELLINGTON WORK BOOT

FEATURES

- 7 Layer Slip and Oil Resistant:
 - *Makes the outsole lighter
 - *Creates more give
 - *Generates springiness
 - *Provides cushioning
- Waterproof
- EVA midsole
- Polyurethane Footbed
- Extra durable-ribbed tempered Steel Shank

Sizes: 8 to 13

Manufacturer: Rocky

Part Number: 5685

ROCKY GREAT OAK GORE-TEX LOGGER WORK BOOT

FEATURES

- Durably Waterproof and Breathable GORE-TEX® fabric
- Goodyear Welt Construction
- Full-Grain Leather Upper
- Removable contoured PU cushion footbed
- Traditional leather welt

Sizes: 8 to 13

Manufacturer: Rocky

Part Number: 2544

FLORSHEIM QUICK RELEASE 6"

FEATURES

- 6" Black Protec Leather
- Tailbrelle Lining
- Removable Polyurethane Cushion Insert
- Shock Absorbing PU Midsole
- Direct Attach, Long Wearing Rubber Outsole
- Flexible Flex Met™ Internal Metatarsal Guard
- Steel Toe Rated ASTM F2413-05 I/75 C/75
- Electrical Hazard

Sizes: 7 to 14

Manufacturer: Florsheim

Part Number: FE690

FLORSHEIM COMFORTECH

FEATURES

- Black Soft Leather Slip On
- No Metal On Upper
- Comfotech Pucker Moc Casual Oxford
- Cambrelle Lining
- Removable EVA Cushion Insert
- Florsheim Slip Resistant PU Outsole
- Steel Toe Rated ASTM F2413-05
- Static Dissipated
 - Slip - Best
 - Oil - Best
 - Metal Chips - Better
 - Heat - Better
 - Abrasion - Best
 - Chemicals - Best

Sizes: 7 to 14

Manufacturer: Florsheim

Part Number: FS205

SLUSH BOOTS

SOLE:

Yellow Upper with Black Ribbed Sole, Cotton Lined, Top Strap & Buckle Adjustment, 17-inch Length, Over-Shoe Style

Sizes: 6-18

Manufacturer: Cordova

Part Number: BYS17

FIVE BUCKLE BOOTS

Black Uppers with Brick Red Ribbed Soles, Five Adjustable Buckles, Self-Draining Gussets, 14-inch Length, Over-Shoe Style

Sizes: 7-16

Manufacturer: Cordova

Black Uppers with Brick Red Ribbed Soles, Cotton Lined, Plain Toe Design, 16-inch Length

Sizes: 7-14

Manufacturer: Cordova
Part Number: BB16

FOOTWEAR

STEEL TOE/STEEL MIDSOLE 16'' BOOTS

FEATURES & BENEFITS:

Excellent for use in orchards, vegetable fields, citrus groves, and agriculture.

- Injected molded seamless construction
- Steel toe complies with ASTM F2413-05 and CSA Z195
- Full steel midsole
- Replaceable cushion insoles
- Cut-off bands for height adjustment
- Pull-up and kick-off lugs for easy on and off

Manufacturer: Onguard

Part Number: 86102

GATOR

FEATURES & BENEFITS:

- 100% waterproof, durable, injection molded black PVC overshoe
- Closure buttons are molded onto the boots for added strength
- Self-cleaning Large Lug outsole for added traction in most conditions
- Elastic closure loops with stitched tabs can be easily secured with gloves
- Molded extra large kick-off lugs

Manufacturer: Onguard

Part Number: 89802

Safety Glasses

SAFETY GLASSES

NORTH N-VISION SERIES SAFETY GLASSES

- Modern ergonomic design for comfort and fit
- Easy lens replacement system
- Frame made of new Elasto LT chemical resistant material
- Comfortable straight and curved temple ends supplied with all N-Vision 5600 Series eyewear
- The lenses are protected with Horth's exclusive 4A Coating: Anti-Fog, Anti-Scratch, Anti-UV 99.9%, Anti-Static
- Meets and/or exceeds ANSI Z87.1 and CSA Z94.3

Manufacturer: North

Part Number: T5650

EASY-FLEX PROTECTIVE EYEWEAR

- 99% UV protection
- Polycarbonate lenses for high-impact protection
- Temples and frame flex to fit a wide variety of faces
- Hard-coated lenses

Manufacturer: MSA

Part Number: 10070920/-19/-18/-17

PYRENEES PROTECTIVE EYEWEAR

- Dual injection soft tip temples
- Full side protection
- Meets Z87+ and CSA Z94.3.

Manufacturer: MSA

SPECTACLES IMPRESSION II

Sightgard Industrial Protective Eyewear is designed for protection against impact hazards and/or flying particles, dust, sparks, and glare. Sightgard Industrial Protective Eyewear provides excellent side- and front-impact protection while still being comfortable to wear.

- Vertical and Horizontal Temple Adjustments
- Extended Cheek and Brow Protection
- Clear Anti-Fog Lens

Manufacturer: MSA
Part Number: 10008177

SAFETY GLASSES

SPECTACLES RX OVER GLASSES CLEAR

MSA Rx overglasses offer wide-angle viewing for distortion-free vision, limited lens curvature for maximum optics, and horizontal and vertical adjustable temples for custom fit. Lenses feature the anti-fog and anti-scratch coatings. Fits over most prescription eyewear.

Meets ANSI Z87.1-2003 High Impact. Lens: Black, anti-fog, Frame: Royal blue

- Royal blue horizontal and vertical adjustable temples
- Wide-angle viewing without distortion
- Limited lens curvature for the best optics

Manufacturer: MSA
Part Number: 10008175

CLEARVUE® 200 GOGGLES

Principles of Operation

The frame design allows for a comfortable, secure, evenly distributed fit against the wearer's face. A flexible, rolled-in cushion at the temples provides comfort without tension or pressure points. The wide, elastic headband keeps the goggles securely in place and enables easy adjustment. The unique ventilation system, positioned just above the bridge of the nose, permits constant upward flow of air over the lens. The oversized, spherical, polycarbonate lens protects against chemical splash and ultraviolet rays, while permitting unobstructed viewing.

Approvals & Standards

Meets or exceeds all requirements of ANSI Z87.1-2003 (High Impact).

Applications

Agriculture
Mining
Hazards
Projectiles

Product Information

Features an integrated-frame design and a flexible, rolled-in cushion at the temples, which provides comfort without tension or pressure points.

Manufacturer: MSA
Part Number: 696776

SPERIAN STELLAR

Key Features

Classical Design Model in a metal frame. Features adjustable hypoallergenic nose pads and metal temples with 3D spatula tips.

- EC Category PPE, Standards EN 166/EN170, European Directives 89/686/EEC, ISO 9001/2000, impact rating F (low energy impact)

LENS CLEANING

Feature

- Dispenser box of 100 lens cleaning towelettes
- Anti-static, anti-fog formula
- Silicone and alcohol free
- Biodegradable
- Enviro-friendly cabinet
- Complete with pump dispenser of 500 ml, anti-fog cleaning fluid and cleaning tissues
- No hardware required-hang it anywhere
- Nothing to fill, comes ready to use
- Instantly cleans spectacles, goggles and faceshields
- Removes toughest grime and grease
- Its anti-fog actions is significantly longer lasting than any other on the market

Manufacturer: North

Part Number: LCS2 and T1025T

The background features a stylized, abstract illustration of industrial machinery. The design is composed of various geometric shapes and lines in shades of red and yellow, set against a solid black background. The machinery appears to be a complex assembly of parts, possibly a conveyor system or a large-scale manufacturing component, rendered in a clean, modern, and somewhat futuristic style. The overall aesthetic is industrial and technical.

Head Protection

HEAD PROTECTION

FULL BRIM HELMET

The MSA Full Brim Helmet is a comfortable shell and suspension unit that offers lightweight protection with limited resistance to top impact and penetration. The design of the shell is attractive which will assist with worker acceptance of this helmet. The shell of this helmet is made from a lightweight polyethylene while the full brim offers extra coverage at the sides and the back of the neck.

The V-Gard hard caps have the Fas-Trac ratchet suspension which allows for the hat to be adjusted by a knob while being worn to fit 4 different sizes. This hard hat can be adjusted to fit sizes 6 1/2 to 8. Replacement Hard Hat Suspension is available from MSA as the 473332 Ratchet Adjustment Suspension.

Hard Hat Head Protection & Hair/Face Cover Full Brim, Polyethylene. V-Gard Caps and Hats meet or exceed the applicable requirements for a Type I helmet (top impact) as outlined in ANSI Z89.1-2003, Class E and also as outlined in CSA 294.1-2005 (Class E) with 1-Touch and Fas-Trac suspensions.

Features & Benefits:

Polyethylene shell provides superior impact protection

Self-adjusting crown straps ensure a comfortable fit

Slotted design works with MSA accessories

Non-slotted design is a full brim hat

Available in a variety of colors and sizes

Custom imprinting and striping options

Approvals & Certifications

ANSI/ISEA Z89.1-2009 (Class E, Type I)

CSA Z94.1-2005 (Class E, Type I) when assembled with MSA Fas-Trac® or 1-Touch® Suspension

HEAD PROTECTION

REGULAR HELMET

Product Description

These V-Gard® Protective Caps are part of the same family of products and accessories recognized as the best-selling in North America. Polyethylene shell and self-adjusting crown straps provide comfortable, lightweight protection. Available in slotted (to work with MSA accessories) or non-slotted. Three size options make these the ideal protectors for the entire work crew.

Features & Benefits

- Polyethylene shell provides superior impact protection
- Self-adjusting crown straps ensure a comfortable fit
- Slotted design works with MSA accessories
- Non-slotted design is a full brim hat
- Available in a variety of colors and sizes
- Custom imprinting and striping options
- Approvals & Certifications

ANSI/ISEA Z89.1-2009 (Class E, Type I) CSA Z94.1-2005 (Class E, Type I) Small and Large V-Gard® Caps are NOT CSA-certified. Standard-size V-Gard® Caps and Hats are CSA-certified only when assembled with MSA Fas-Trac® or 1-Touch® Suspension.

Feature durable, injection-molded, high-density polyethylene shell designed with accessory slots to accommodate many add-on features. Available with (4) types of suspensions: Fas-Trac® ratchet suspension: 4-point webbed system with a large knob for easy adjustment Staz-On® pinlock suspension: 4-point webbed system UniPro®: 4-point, one piece plastic baseball-cap-style pinlock adjustment system 1-Touch® suspension: allows easy adjustment with one-hand adjustable dual nylon straps Includes Cushionaire™ sweatband and adjustable crown straps. Meets ANSI/ ISEA Z89.1-2009, Type 1, Class E and voluntary standard for low temperature (LT) and reverse donning. Meets CSA Z94.1-2005 (Class E) with 1-Touch® and Fas-Trac suspensions. Suspension: Fas-Trac

V-Guard® protective cap is created from a polyethylene shell and suspension system

- Durable and lightweight
- Uses the Fas-Trac® Ratchet Suspension System
- This cap meets or exceeds the applicable requirements for a Type 1 Helmet (Top Impact)
- V-Guard® caps are not specifically designed to protect against lateral blows from the front, side or rear
- This helmet must fit securely on the head to provide maximum protection

V-Gard Caps and Hats meet or exceed the applicable requirements for a Type I helmet (top impact) as outlined in ANSI Z89.1-2003, Class E and also as outlined in CSA 294.1-2005 (Class E) with 1-Touch and Fas-Trac suspensions.

HEAD PROTECTION

VENTED HELMET

Product Description

Get renowned protection with these protective caps, which are part of the family of best-selling helmets and accessories in North America. V-Gard® 500 Protective Caps feature a robust design, durable shell construction and cooling vents for increased breathability. A rain trough extends around the brim, making it ideal for hot and/or wet environments.

Features & Benefits:

- Robust design, durable shell construction
- Cooling vents for improved air circulation and comfort
- Glaregard® Surface underbrim to reduce reflective glare
- Lateral contours for easy integration of hearing protection
- Extended rain trough for around-the-brim protection in hot and/or wet environments
- Available in a variety of colors
- Custom imprinting and striping options

HEAD PROTECTION

Color

POLY/COTTON BASEBALL CAP BUMP CAP

Size: One Size
Manufacturer: Occunomix
Part Number: V410

Detail:
Getting workers to wear protection is often half the battle, especially in work environments where hard hats are not required. Importantly, a survey by the Bureau of Labor Statistics (BLS) recorded that one-third (1/3) of impact injuries to the head were suffered by workers who bumped into stationary objects when not wearing any head protection.

That's why OccuNomix created the sporty style, fun to wear, Baseball Cap Bump Cap "BCBC" with solid PE Cap Insert. The outer Poly/Cotton Baseball Cap is a one size fits all, high profile, 6 panel design with top of cap holes for cooling air flow. Inside, a separate hard plastic Polyethylene (PE) Shell Cap Insert encircles top, front and both

sides of head to protect against bumps and scrapes, secures easily in our Vulcan Baseball Caps, includes corresponding holes for cooling ventilation and foam padding against head to enhance comfort. The PE Insert is also sold separately so workers can secure it into their favorite "high profile" or "pro-style" constructed baseball cap. Plus, there are no replacement parts.

Ideal for work areas such as food/beverage processing, meat packing, warehousing, auto repair, home inspection, various types of mechanical work, meter reading or pest control, where blows to back of head are not an issue.

Not ANSI Compliant.

HEAT STRESS PREVENTION

MIRACOO BANDANA

America's #1 Cooling Bandana. Simply hydrate in cool water for a few minutes, then wrap around neck.

The MiraCool® bandana is simple, effective and reusable.

Available in many 100% cotton colors, patterns, assortments, money saving bulk packs plus flame retardant fabric.

Size: One Size

Manufacturer: OCCUNOMIX
Part Number: 940

MIRACOO SUPER BANDANA

This super-sized Bandana holds 20% more water than the Deluxe MiraCool® Bandana. Designed with two channels in back for even distribution of cooling and made with heavier weight cotton fabric for maximum durability and strength. To fasten, simply slip one tie end through other tie end with three button holes. Button holes allow for varying neck sizes. The MiraCool® Super Bandana stores water so it can last for many days without rehydration. Ideal for very dry environments.

Size: One Size

Manufacturer: OCCUNOMIX
Part Number: 947

MIRACOO DELUXE BANDANA

Longer and wider than the classic MiraCool® Bandana, the Deluxe Bandana holds 70% more cool water for enhanced evaporative cooling.

Designed with two channels in back for even distribution of cooling.

Size: One Size

Manufacturer: OCCUNOMIX
Part Number: 945

HEAT STRESS PREVENTION

MIRACOOl COLLAR BANDANA

America's #1 Cooling Bandana. Simply hydrate in cool water for a few minutes, then wrap around neck. The MiraCool® bandana is simple, effective and reusable. Available in many 100% cotton colors, patterns, assortments, money saving bulk packs plus flame retardant fabric.

Size: One Size

Manufacturer: OCCUNOMIX
Part Number: 940

MIRACOOl COOLING PONCHO VEST

MiraCool® Cooling Poncho Vest w/Reflective
Smaller, economical version of our MiraCool® Cooling vest. MiraCool® crystals retain the coolness of cool water and work over lightweight shirt to continuously release cooling sensations which are carried throughout the body.

Completely reversible, if cooling sensations diminish. Renew and refresh coolness by turning vest inside out. Adjustable side straps.

100% cotton fabric. Size: Regular fits mens jacket size up to 46 American/56 European.

Size: Reg

Manufacturer: OCCUNOMIX
Part Number: 902R

Color

MIRACOOl HARD HAT PAD

Designed for hard to reach, hard to cool workers heads, when wearing hard hats. Just minutes in cool water, then fasten to hard hat suspension using the hook and loop straps. Air movement around the suspension does the rest to enhance cooling evaporation.

Available economy bulk packs.
Note: Does not interfere with any hard hat safety standards.

Size: One Size

HEARING PROTECTION

SORDIN LEFT/RIGHT

A comfortable headset that has left and right individual ear caps, providing more space for the outer ear. The design aims for improved comfort and protection, enhancing the attenuation range and level hearing protection.

Manufacturer: MSA
Part Number: 10087400

LEFT / RIGHT HELMET AND HEADBAND MOUNTED NRR

- the left cup is different from the RIGHT
- cups are large enough to fit all ears
- headbands contour to the head's actual curves

Left/Right Ear Muffs novel design is so unusual that we've even patented (pending) our ideas. Left/Right Ear Muffs will change the way we understand hearing protection.

Manufacturer: MSA
Part Number: 10087429

HEARING PROTECTION

MSA ECONOMUFF MULTI-POSITION EARMUFF / HEADBAND / SLOTTED CAPS

- Designed to fit comfortably under safety hard hats and faceshields, these earmuffs provide aggressive protection in low-moderate noise environments.
- Features spring design for low pressure, (3) wearing positions, excellent grip for ease of adjustment, easy-to-remove ear cushions, and unique molded inserts for excellent noise attenuation.
- Weight 8.7 oz. Tested to ANSI S3.19-1974.

Manufacturer: MSA
Part Number: 10061535/-229/-230/-271/-272/-273

TRI-SEAL REUSABLE SILICONE EAR PLUGS (CORDER) IN DISPENSER BOX

Made from soft, comfortable silicone, Tri-Seal™ Reusable Ear Plugs are easy to put in and take out. They come in a convenient dispenser box (suitable for wall hanging) of 100 individually packaged pairs. NRR-25dB.

- Properties:**
- 100 per box
 - Ruggedly designed, made of soft, comfortable silicone
 - Easy to insert in the ear and economical
 - Offer protection comparable to many MSA earmuffs
 - Dispenser boxes of 100 individually packaged pairs (Suitable for wall hanging)
 - Corded, NRR-25dB

Manufacturer: MSA
Part Number: 10005607MSA

LEIGHTNING L3HS HELMET EARMUFF

Steel wire construction stands up to daily use and abuse without compromising comfort. Padded foam headband and super soft ear cushions eliminate “squeezing pressure” on the head. Patented Air Flow Control™ technology for optimal attenuation across all frequencies and snap-in ear cushions for easy maintenance. Cap-mounted styles include pair of adapters. Tested to ANSI S3.19-1974. NRR: 25, Color: Dark Gray

Part Number: CDM1

ULTRA-TWIN RESPIRATOR

Crafted to provide a secure fit and strong protection, Ultra-Twin Full-Facepiece Respirators offer several options that make it a clear choice for defense against toxic chemicals. The unit features an inturned lip for a comfortable seal against the face, a large chin cup for easy positioning, and 5 suspension headstraps with roller buckles that hold the facepiece in place while minimizing hair entanglement. The wide lens is scratch resistant, while a speaking diaphragm provides clear short-range communications. The unit also features a nose cup that helps eliminate lens fogging.

- Feature an inturned lip, large chin cup, and 5 headstraps with roller buckles for secure, comfortable fit
- Speaking diaphragm provides clear communications
- Nosecup reduces lens fogging

Manufacturer: MSA **Part Number:** 471286

3S FULL FACE MASK

- Over 50 versions for your convenience
- Available in standard and small sizes
- Several versions of harnesses: rubber, silicone, Nomex EZ-don, adapters for mask-helmet-combinations
- Lens variants coated in polycarbonate & Triplex glass, also for high mechanical and chemical resistance
- Broad range of accessories
- Also available as mask-helmet-combination

Manufacturer: MSA
Part Number: D2055000

RESPIRATOR CARTRIDGES

Filter cartridges protect against dusts, particles and mists. Chemical cartridges protect against gases and vapors. Combination cartridges deliver protection from both particulate and gaseous contaminants. Most cartridges are incinerable.

Manufacturer: MSA
Part Number: 815357, 815366, 815182, 464033, 464031, 815178, 464046, 492790, 815355, 815369, 815356

RESPIRATORY PROTECTION

OPTIMAIR 3000 PAPR

- Smart, ergonomic design packages motor blower, cartridges and battery on user's back
- Microprocessor-controlled, variable-speed motor provides optimal amount of air to user
- Unit is available in three configurations OptimAir 3000, OptimAir 3000A and OptimAir 3000 EX
- Standard blower weighs less than 1.5 kg
- Audible and visual alarms for low flow indication and low battery voltage
- NiMH battery can operate for more than 8 hours (depending on the configuration)

Manufacturer: MSA
Part Number: 10049558

S-CAP-AIR, 15 MIN

The S-Cap-Air is a hooded constant flow, breathing apparatus to escape from areas in which toxic substances or oxygen deficiency may occur. Simply open the unit, don the hood and make your escape.

- Visual warning indicator
- Fast automatic activation
- Self-explanatory operation and donning
- Very comfortable inner mask and neck seal
- Superior field of view through the large hood visor

Approvals & Standards

- EN 1146
- Duration: 15 minutes.
- SOLAS approved for use aboard ships.

Manufacturer: MSA
Part Number: 10017668

AIRHAWK II AIR MASK 35/45/60 MINS CYLINDER

Built upon MSA's established AirHawk MMR Air Mask and is a lightweight, durable, and economical SCBA for many industrial IDLH (immediately dangerous to life or health) applications.

- Lower-cost options while offering many new choices not offered with any other industrial SCBA
- Available in both low-pressure and high-pressure versions
- Pressure-demand apparatus designed to maintain a slight positive air pressure inside the facepiece during inhalation and exhalation

Manufacturer: MSA
Part Number: 10049558

RESPIRATORY PROTECTION

FULL FACE RESPIRATOR

- Each facepiece comes with three peel-away windows, six respirator wipes and a storage bag
- Oral nasal cup reduces fogging and lessens dead air space
- Chin cup helps to position the facepiece properly
- Hard-coated polycarbonate lens affords an over 200° field of vision
- North 5400 Series Full Facepieces are compatible with all North cartridges, filters and accessories

Manufacturer: North
Part Number: 5400

RESPIRATOR, HALF MASK

Features and Benefits

- Made of an extremely soft non-allergenic elastomer for comfort and fit. Contoured sealing flange eliminates discomfort caused by pressure points on facial nerves. Design of nose area provides excellent comfort and fit.
- Low dead air space improves worker comfort by limiting re-breathing of exhaled air.
- Direct cartridge to facepiece seal minimizes replacement parts and simplifies maintenance.
- Three overlapping sizes comfortably fit most users.
- North 5500 Series Half Masks are compatible with all North cartridges, filters and accessories.

Manufacturer: North
Part Number: 550030

MULTI-PURPOSE CARTRIDGE / ORGANIC VAPOR AND ACID GAS CARTRIDGE

North Safety Defender Multi-Purpose respirator cartridge for Organic Vapor, Chlorine, Hydrogen Chloride, Sulfur Dioxide, Hydrogen Sulfide (Escape), Hydrogen Fluoride, Chlorine Dioxide, Ammonia, Methylamine and Formaldehyde.

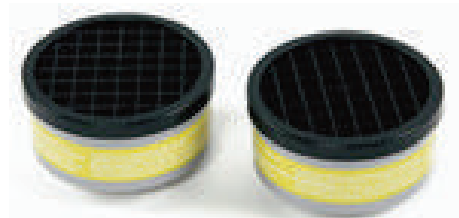

These cartridges can be used with any North Safety full or half-face mask respirators.

Package contains 2 cartridges. North respirator masks sold separately.

Part Number: North 75SC

North Organic Vapor & Acid Gas respirator cartridge for Organic Vapor, Chlorine, Hydrogen Chloride, Sulfur Dioxide, Hydrogen Fluoride and Chlorine Dioxide

Part Number: N75003
Manufacturer: North

CHROME CORE CUT 5

- Made with SuperFabric® brand material for the highest cut-resistance available on the market, exceeds ISEA Level 5
- Oil and abrasion-resistant synthetic leather palm enhances grip in dry and light oil applications while providing dexterity to utilize tools and equipment
- Launderable

Sizes: 7/S-11/XXL
Manufacturer: HexArmor
Part Number: 4032

CHROME SERIES CUT 5 360

- Made with SuperFabric® brand material for the highest cut resistance available on the market- Exceeds ISEA/ CE Level 5 (in noted enhanced areas)
- Synthetic leather palm enhances grip in dry and light oil applications, while providing dexterity to utilize tools and equipment
- 360° Level 5 cut resistance
- Launderable
- SuperFabric® brand material knuckle patch adding extra protection on the back of hand.

Sizes: 7/S-12/3XL
Manufacturer: HexArmor
Part Number: 4023

CHROME SERIES CUT 5 IMPACT HI-VIS

- Made with SuperFabric® brand material for the highest cut resistance available on the market, exceeds ISEA and CE Level 5
- Back of hand impact protection
- Synthetic leather palm enhances grip in dry and light oil applications while providing dexterity to utilize tools and equipment
- Abrasion-resistant PVC dots for maximum grip in oily situations
- Hi-Vis color and reflective tape on back of hand
- Oil resistant
- Launderable

Sizes: 7/S-12/3XL
Manufacturer: HexArmor
Part Number: 4026

MECHANICS

- Made with SuperFabric® brand material for the highest cut-resistance available on the market, exceeds ISEA/ CE Level 5 (in noted enhanced areas)
- Innovative industrial puncture protection on enhanced areas from wires, metal, wood, glass
- Synthetic leather palm enhances grip in dry and light oil applications while providing dexterity to utilize tools and equipment
- Launderable

Sizes: 7/S-12/3XL
Manufacturer: HexArmor
Part Number: 4018

HAND PROTECTION

RIG LIZARD

- Durable TP-X™ palm utilizes the highest-level abrasion resistance while maintaining oil-resistant grip.
 - Synthetic palm with unique stitching pattern offers unrivaled comfort and dexterity.
 - Full impact-resistant exoskeleton with high-performance IR-X™ smash guards provides greater impact protection than the leading competitor.
 - Additional IR-X™ guard between thumb and index finger secures common pinch and catch points.
 - Reinforced index finger and thumb crotch extends glove life.
 - Exterior seams implement a double stitched core-spun thread, adding further durability and longevity.
 - Breathable SlipFit™ cuff adds comfort and convenience.
 - Hi-Vis color scheme increases visual awareness.
 - ISEA Level 3 cut and puncture protection.
 - Machine washable.
- Sizes:** S-3XL
Manufacturer: HexArmor
Part Number: 2021

SUPERHOG

- Made with SuperFabric® brand material for the highest cut-resistance available on the market- Exceeds ISEA/CE Level 5
 - Full coverage puncture protection from wires, metal, glass
 - 25% larger than standard HOG for better fit
 - Leather covering over palm and fingers for secure grip and extended durability
 - New saddle design for increased puncture-resistance
 - Extended gauntlet cuff
 - Developed with HOG PPA Velcro system, attaches to Piercan Polyurethane-Hypalon underglove
 - 13" long, can be used with 4-5" cuff rings
- Sizes:** S-3XL
Manufacturer: HexArmor
Part Number: 3189

GENERAL SEARCH AND DUTY GLOVE

- Highest needlestick-resistance available provided by the layering of SuperFabric® brand material
 - Tested with 25 gauge needles (modified ASTM 1342-05 test)
 - Highest level of cut-resistance in enhanced areas, exceeds ISEA/CE Level 5
 - AirMesh™ breathable back of hand with Airprene wrist band and velcro closure
 - Launderable
- Sizes:** S-3XL
Manufacturer: HexArmor
Part Number: 4045

POINTGUARD X

- Highest needlestick resistance available provided by the layering of SuperFabric® brand material
 - Tested using actual 25 gauge needles (modified ASTM 1342-05 test)
 - Highest level of cut-resistance on noted enhanced areas, exceeds ISEA/CE Level 5
 - Recommended use as an under-glove solution with appropriate top-glove combination
 - Lightweight spandex shell with elastic wrist support
 - Launderable
- Sizes:** S-3XL
Manufacturer: HexArmor
Part Number: 6044

HAND PROTECTION

9000 SERIES 9012

- Made with SuperFabric® brand material for the highest cut-resistance available on the market, exceeds ISEA/CE Level 5 (in noted enhanced areas)
- Innovative industrial puncture protection on enhanced areas from wires, metal, wood, and glass
- Cut-resistant DuPont™ Kevlar® shell with wrinkle rubber palm coating for exceptional dexterity and feel – ISEA Level 2/CE Level 5

Sizes: S-XXL
Manufacturer: HexArmor
Part Number: 9012

MECHANICS GLOVES

Gulfport Mechanics Gloves feature Amara washable synthetic leather for palm and finger material. Amara: 1) won't slip, even when wet, or 2) harden after drying and 3) is not affected by hydraulic fluids.

Top of gloves are made of two-way stretch spandex, padded for a snug yet flexible and comfortable fit. Reinforced thumb/index web area delivers increased wear life. Cuffs are adjustable with elastic and hook and loop closure.

For traffic area safety, Gulfport logos at wrists are reflective.

Sizes: S-2XL
Manufacturer: OCCUNOMIX
Part Number: G470

KEVLAR UTILITY

Designed for construction, mechanic, assembly workers or anyone handling a utility knife. Hand fitted design for added comfort. Kevlar® patches are sewn on thumb, thumb-web, palm & fingertips to reduce abrasion and increase wear life.

Heavy-duty reinforced finger sidewalls. Heavy-duty stretch nylon for snug fit. Breathable neoprene knuckles with reflective piping. Thumb design pull tab makes gloves easy to pull on. Trimmed with Terry to absorb perspiration. Machine washable Amara. Hook & loop wrist closure. Pairs.

Sizes: S-2XL
Manufacturer: OCCUNOMIX
Part Number: 480W

FULL FINGER GEL GLOVES

Designed with leather front, vinyl padded back plus cools nylon / spandex on lower back and wrist. V.E.P.P Gel protection covers: palm, index finger and full thumb.

Optimally Suited For: Medium to heavy industrial power tools. Keeps full fingers covered in cold weather.

Sizes: S-2XL

CANVAS/BLACK PVC DOTS

Sizes: Men's Large

Standard, 8-ounce Cotton Canvas, Clute Pattern, Black PVC Dots, Knit Wrist

2602: Ladies, 8-ounce Cotton Canvas, Black PVC Dots, Knit Wrist

2610: 10-ounce Cotton Canvas, Black PVC Dots, Knit Wrist

2612: Ladies, 10-ounce Cotton Canvas, Black PVC Dots, Knit Wrist

2640: 12-ounce Cotton Canvas, Black PVC Dots, Knit Wrist

Manufacturer: Al Asayel
Part Number: 2608

CANVAS/HEAVY WEIGHT

Sizes: Men's Large
Premium, 12-ounce Cotton Canvas, Clute Pattern, Knit Wrist
2200: Standard, 12-ounce Cotton Canvas, Clute Pattern, Knit Wrist
2100: Standard, 10-ounce Cotton Canvas, Clute Pattern Knit Wrist
2100CD: Standard, 10-ounce, Corded Cotton Canvas, Clute Pattern, Knit Wrist

Manufacturer: Al Asayel
Part Number: 2200C

YELLOW FULL CHORE

Sizes: Men's Large
Yellow Full Chore, Quilted Palm and Back, Knit Wrist

Manufacturer: Al Asayel
Part Number: 2318

COTTON
CHORES

YELLOW SINGLE-PLY CHORE

Sizes: Men's Large
Yellow Single-Ply Chore, Red Knit Wrist

Manufacturer: Al Asayel
Part Number: 2320

YELLOW CHORE/CANVAS BACK

Sizes: Men's Large
Yellow Chore, Quilted Palm, Canvas Back, Safety Cuff
2316: Yellow Chore, Quilted Palm, Canvas Back, Knit Wrist
2316G: Yellow Chore, Quilted Palm, Canvas Back, Plasticized Gauntlet Cuff

Manufacturer: Al Asayel
Part Number: 2316S

DOUBLE PALM/NAP-OUT

Sizes: Men's Large

Cotton Canvas Double Palm, Nap-Out, Quilted Palm, Band Top

2410: Double Palm, Nap-Out, Quilted Palm, Knit Wrist

2450: Double Palm, Nap-Out, Quilted Palm, Gauntlet Cuff

Manufacturer: Al Asayel

Part Number: 2400

DOUBLE PALM/RED KNIT WRIST

Sizes: Men's Large

Cotton Canvas Double Palm, Nap-In, Quilted Palm, Red Knit Wrist

24201: Double Palm, Nap-In, Quilted Palm, Blue Knit Wrist

Manufacturer: Al Asayel

Part Number: 24101

A stylized, abstract graphic on the left side of the page. It features a vertical red bar on the far left. To its right, a yellow silhouette of a person is shown in profile, wearing a complex safety harness. The harness includes various straps, buckles, and a central vertical element. The background is black, and the overall style is modern and industrial.

HARNESSES & LANYARDS

WORKMAN HARNESS, QUICK-FIT CHEST AND LEG STRAPS, STANDARD

The Workman Harness provides comfortable protection, due to its lightweight components and durable webbing. The vest-style harness, with optional hip D-Rings for work positioning, fits a wide range of body types and sizes. Color-contrasting thigh and torso straps simplify donning.

Features:

- Economical
- Abrasion-resistant, strong, durable webbing
- Yellow polyester webbing for high visibility
- Web retainer collars to keep excess webbing neat
- Easy to don and adjust
- Choice of Qwik-Fit™ or Tongue-Buckle leg straps for easy adjustment

Manufacturer: MSA

Part Number: 10072479

STANDARD QUICK FIX BACK HARNESS

Harness provides comfortable protection, due to its lightweight components and durable webbing. The vest-style harness, with 3D-Ring attachment points at back and hip for work positioning, fits a wide range of body types and sizes. Color-contrasting thigh and torso straps simplify donning. Meets OSHA regulations, ANSI A10.32 & ANSI Z359.1, and are certified to CSA Z259.10-M90. Chest strap & Leg Buckle; Quik-Fit. Applications: Agriculture, Asbestos Abatement, Chemical, Construction Electric Utility, Mining, Nuclear, Oil and Gas, Paper & Pulp, Spray Painting, Welding. This Standard Quick Fix Back Harness is one of many top quality items in our Fall Protection Devices department.

Manufacturer: MSA

Part Number: 10072492

TONGUE BUCKLE, HIP D-RING, SHOULDER PADS, STANDARD

- The Workman Construction Harness provides comfortable protection, due to its lightweight components and durable webbing.
- The vest style harness, with optional hip D-rings for work positioning, fits a wide range of body types and sizes.
- Integral backpad for added comfort during work positioning with a removable, tongue buckle tool belt.
- Color-contrasting thigh and torso straps simplify donning.
- Other features include abrasion-resistant, durable yellow polyester webbing for high visibility and web retainer collars to keep excess webbing neat.
- Tongue buckle leg straps make for easy adjustment.
- Meets all applicable OSHA requirements and "ANSI standards including ANSI A10.32 and ANSI Z359.1

Manufacturer: MSA

Part Number: 10077571

HARNESSES & LANYARDS

WORKMAN CONSTRUCTION-STYLE FULL BODY HARNESS, TONGUE LEG/QWIK-FIT CHEST BUCKLES, SIZE: STANDARD

Lightweight and comfortable, the economical Workman Construction-Style Harness has a maximum capacity of 400 lbs. Construction workers love this harness because it includes a removable tongue-buckle tool belt, and an integral back pad for added comfort during work positioning.

- Made with strong, abrasion-resistant polyester webbing with a minimum breaking strength of 6,000 lbs.
- The 1-3/4"-wide webbing is bright yellow for high visibility.
- Web retainer collars keep excess webbing from becoming a problem.
- Thigh and torso straps are in contrasting colors, so donning is easy.
- Back D-ring (standard) and side D-rings (optional) are zinc-plated, stamped-alloy steel with a minimum breaking strength of 5,000 lbs. (proof-tested to 3,600 lbs.).
- Comes with a Qwik-Fit™ chest strap and tongue-buckle leg straps for easy adjustment.
- Meets all applicable OSHA standards, including 1910.66 and 1926.502, plus ANSI A10.32 and Z359.1, and CSA Z259.10-M90, classes A and P.

Manufacturer: MSA
Part Number: 10072495

LANYARD SA WORKMAN 2LC SNAP TIEBACK

Features:

- Connection Type=LC, Color=Yellow, No. of Legs=1, Type=Tie-Back, Testing and Approvals: Meets ANSI Z359.1, ANSI A10.32, applicable OSHA regulations, and is certified to CSA Z256.11-05 E4
- Tear-tape design to keep fall arrest forces below 900 lbs
- Adjustable configurations

Manufacturer: MSA
Part Number: 10072472

DOUBLE LEG, TIE-BACK LANYARD

Tear-tape design to keep fall arrest forces below 900 lbs
Adjustable configurations

Part Number: 50006

WET CHEMICAL STORED PRESSURE CLASS "K" KITCHEN EXTINGUISHERS 6 LITERS

WET CHEMICAL extinguishers are the best restaurant kitchen appliance hand portable fire extinguishers you can purchase. Both have been tested and approved for the new Class K listing by UL specifically for restaurant kitchen hazards. They contain special potassium acetate based, low PH agent developed for use in pre-engineered restaurant kitchen systems. The recent trend to more efficient cooking appliances and use of unsaturated cooking oils

dictates the use of a hand portable fire extinguisher with greater fire fighting capacity and cooling effect to combat these very hot and difficult fires.

The Model B260 is the ideal "KITCHEN USE" fire extinguishers. They supplement existing cooking equipment automatic system protection for an extra margin of safety.

Manufacturer: Amerex
Part Number: B260

STORED PRESSURE CLASS "K" KITCHEN EXTINGUISHERS 2 1/2 GAL

WET CHEMICAL extinguishers are the best restaurant kitchen appliance hand portable fire extinguishers you can purchase. They contain special potassium acetate based, low PH agent developed for use in pre-engineered restaurant kitchen systems. The recent trend to more efficient cooking appliances and use of unsaturated cooking oils

dictates the use of a hand portable fire extinguisher with greater fire fighting capacity and cooling effect to combat these very hot and difficult fires.

The Model B262 is the ideal "KITCHEN USE" fire extinguishers. They supplement existing cooking equipment automatic system protection for an extra margin of safety.

Manufacturer: Amerex
Part Number: B262

CLASS D STORED PRESSURE DRY POWDER EXTINGUISHER

For Combustible Metal Fire

MODEL B570 contains a specially blended Sodium Chloride based dry powder extinguishing agent. Heat from the fire causes it to cake and form a crust excluding air and dissipating heat from burning metal. Metal fires involving magnesium, sodium, potassium and sodium-potassium alloys can be successfully extinguished with this extinguisher. There is data showing that zirconium, uranium, titanium, and powdered aluminum fires can be controlled and extinguished with this unique extinguisher.

Manufacturer: Amerex
Part Number: B570

FIRE SAFETY

HALOTRON 1 FIRE EXTINGUISHER - AMEREX 11 LB

Features:

- Dependable drawn steel cylinders
- All metal valve construction
- EPA approved "Clean Agent" for Class A, B, and C hazards
- Low GWP (Global Warming Potential)
- Low ODP (Ozone Depletion Potential)
- Short Atmospheric lifetime
- Leaves no residue
- Maximum visibility during discharge
- No electrical conductivity back to the operator
- No thermal or static shock
- Bar coded and bi-lingual labels

Manufacturer: Amerex
Part Number: 397

ABC DRY CHEMICAL FIRE EXTINGUISHER

Aluminum bottle. Amerex ABC or Multi-Purpose fire extinguishers utilize a specially fluidized and silicized mono ammonium phosphate dry chemical.

The ABC Dry Chemical Fire Extinguisher, Models B456 (10 lb. w/ aluminum valve) is the hallmark for quality in the fire extinguisher industry. Rugged steel cylinders and stored pressure design are just a couple features of this ABC or multipurpose extinguisher, which contains a specially fluidized and silicon zed monoammonium.

Manufacturer: Amerex
Part Number: B456

"ABC" DRY CHEMICAL RECHARGE MONOAMMONIUM PHOSPHATE PAILS

50 LBS pail

GUARDIAN G1512 10 GALLON PORTABLE EYEWASH/DRENCH HOSE

Application: Self-contained eyewash and/or drench hose units are ideal where a continuous supply of potable water is not available. These units may be used in low traffic areas, low hazard areas or where installation of plumbed equipment is not cost effective. Ten gallon units provide approximately 8.3 usable gallons (31.4 liters) of water for effective rinsing of eyes, face or body. Note that, under ANSI Z358.1-2004, drench hose units supplement but do not replace other types of emergency equipment. Tank: 10 gallon stainless steel pressurized tank. Tank has built-in carrying handles, air intake fitting, pressure gauge and pressure relief valve. Tank has approximately 8.3 gallons (31.4 liters) usable capacity
Manufacturer: Guardian Equipment
Part Number: G1512

G1902 SAFETY STATION WITH EYEWASH

Application: Combination eyewash and shower safety station. Two GS-Plus™ spray-type outlet heads deliver a flood of water for rinsing eyes. Shower head: 10" diameter orange ABS plastic. Shower valve: 1" IPS chrome plated brass stay-open ball valve. Valve is US-made with chrome plated brass ball and Teflon® seals. Furnished with stainless steel actuating arm and 29" stainless steel pull rod. Spray head assembly: Two GS-Plus™ spray heads. Each head has a "flip top" dust cover, internal flow control and filter to remove impurities from water.
Sign: Furnished with ANSI-compliant identification sign.
Quality assurance: Valve and spray head assemblies are factory assembled and water tested prior to shipment.
Manufacturer: Guardian Equipment **Part Number:** G1902

G1814 EYEWASH, WALL MOUNTED

Application: Eyewash for wall mounting. Two GS-Plus™ spray-type spray heads deliver a flood of water for rinsing eyes. Spray head assembly: Two GS-Plus™ spray heads. Each head has a "flip top" dust cover, internal flow control and filter to remove impurities from the water flow. Valve: 1/2" IPS chrome plated brass stay-open ball valve. Valve is US-made with chrome plated brass ball and Teflon® seals. Bowl: 11 1/2" diameter stainless steel. Mounting: Heavy duty cast aluminum wall bracket with corrosion resistant powder coated finish. Sign: ANSI-compliant identification sign.

Manufacturer: Guardian Equipment **Part Number:** G1814

FIRST AID

G1562 15 GALLONS PORTABLE EYEWASH

Application: Self-contained eyewash and/or drench hose units are ideal where a continuous supply of potable water is not available. These units may be used in low traffic areas, low hazard areas or where installation of plumbed equipment is not cost effective. Fifteen gallon units provide approximately 10 usable gallons (37.9 liters) of water for effective rinsing of the eyes, face or body. Note that, under ANSI Z358.1-2009, drench hose units supplement but do not replace other types of emergency equipment. Tank: 15 gallon stainless steel pressurized tank. Tank has built-in carrying handles, air intake fitting, pressure gauge and pressure relief valve. Tank has approximately 10 gallons (37.9 liters) usable capacity.

Manufacturer: Guardian Equipment
Part Number: G1562

G1796 WIDE AREA EYE/FACE WASH

Application: Free standing, pedestal mounted WideArea™ eye/face wash. Constructed entirely in PVC and PVC-coated brass. Ideal for use in industrial environments where harsh acids or caustics are present. Four GS-Plus™ spray-type outlet heads deliver a flood of water over a wide area of coverage for complete rinsing of eyes and face. Spray head assembly: Four GS-Plus™ spray heads. Each head has a "flip top" dust cover, internal flow control and filter to remove impurities from the water flow. Pipe and fittings: Schedule 80 PVC. Sign: ANSI-compliant identification sign. Quality assurance: Unit is completely assembled and water tested prior to shipment.

Manufacturer: Guardian Equipment
Part Number: G1796

EYE WASHING STATION

Unit Size: 32 oz.
Pieces Per Package: 1 Bottle
Height: 11"
Width: 13"
Depth: 4"

Manufacturer: Certified Safety
Part Number: K611-030

EYE WASH STATION 16 OZ. OR 32 OZ.

Unit Size: 16 oz.
Pieces Per Package: 2 Bottles
Height: 16"
Width: 12"
Depth: 4"

Manufacturer: Certified Safety
Part Number: K611-018

G1540 AQUAGUARD 16 GALLON

Tank: 16 gallon capacity safety green polyethylene tank. Tank has built-in carrying handle, heavy wall construction, and reinforced ribs to support weight of unit. **Sprayhead Assembly:** Water flow is activated by pulling down on bright yellow eyewash tray. Integral full flow nozzles deliver soft spray of water. Swing tray up to storage position to stop flow. **Drain:** Waste water is directed into drain opening in tank basin. 3 ft. long drain hose in basin directs discharge into floor drain, storage tank, or other receptor. **Mounting:** Furnished with epoxy coated steel bracket for mounting unit on wall. Unit can also be placed on countertop or other flat surface. **Preparation:** Top operate unit, fill unit with clean potable water and add bacteriostatic additive (supplied with unit). Additive protects against growth of bacteria, fungus, algae, and acanthamoeba. Unit should be inspected regularly and water in unit should be changed at least once every six months. **Discharge time:** Eyewash delivers 0.7 gallons per minute (GPM) for 15 minutes.

Manufacturer: Guardian Equipment
Part Number: G1540

G2010 ALL STAINLESS STEEL EYEWASH AND SHOWER SAFETY STATION

The Guardian G2010 is a completely stainless steel eye wash and shower safety station contained in a stainless steel booth with single entry and modesty curtain (10 oz. class 1 clean room approved material). This product is ideal for areas that contain sensitive equipment that cannot be splashed with water, as the booth and curtain contain water from emergency shower while keeping the rest of the room dry. It is particularly useful in clean rooms with perforated floors and in applications where retention/isolation of the rinse water is required.

Manufacturer: Guardian Equipment
Part Number: G2010

Gas Detection

ALTAIR MAINTENANCE-FREE SINGLE-GAS DETECTOR (CARBON MONOXIDE CO)

The ALTAIR Single-Gas Detector features sensor options for carbon monoxide, hydrogen sulfide and oxygen and will operate for over two years maintenance free. This long lifespan, coupled with the unit's high performance, results in one of the most cost-effective single-gas detectors on the market. Advanced design offers superior dust and water protection and high resistance to RFI. Rubberized housing and one-button operation provide the durability and ease of use users expect from MSA instruments.

Alarm System

The triple-alarm system featuring two bright flashing LED's a piercing audible alarm, and a vibrating alarm ensures that no alarm condition goes unnoticed.

- 95dB audible alarm (distinct sounds for High and Low Alarms)
- Dual LED's positioned to be seen from all angles
- Standard vibrating alarm and standard event logging

Durability Features

- Hard polycarbonate case, encapsulated in a thick rubberized shell
- Extremely resistant to drops and impacts
- Rated to IP67 protection levels for dust/water ingress

Manufacturer: MSA

Part Number: 10070750

ALTAIR MAINTENANCE-FREE SINGLE-GAS DETECTOR (HYDROGEN SULFIDE H2S)

The ALTAIR Single-Gas Detector features sensor options for carbon monoxide, hydrogen sulfide and oxygen and will operate for over two years maintenance free. This long lifespan, coupled with the unit's high performance, results in one of the most cost-effective single-gas detectors on the market. Advanced design offers superior dust and water protection and high resistance to RFI. Rubberized housing and one-button operation provide the durability and ease of use users expect from MSA instruments.

ALTAIR 4X MULTIGAS DETECTOR

The ALTAIR 4X Multigas Detector surpasses industry standards in several crucial areas. Its four-year sensor life is 60% longer than the industry average, while its 24-hour run time exceeds the industry average by 71%. This versatile portable detector is a perfect match for industries ranging from fire fighting to welding, and its digital sensor output makes it less likely to suffer from RF interference. The unit features exclusive MotionAlert™, which lets others know if the user has become immobile, and InstantAlert™, a manual alarm that alerts others of potentially dangerous situations. This rugged unit is designed to withstand a drop of up to 20 feet and uses less than half as much calibration gas as the industry average.

Features:

- Dependable multigas detector tests for LEL, oxygen, carbon monoxide and hydrogen sulfide
- Economical construction saves users more than 50% on calibration gas, replacement sensors and maintenance
- Four-year sensor life means detector lasts 60% longer than the industry average
- Unit uses 50% less calibration gas per minute than the average detectors within the industry
- Two-tox CO/H2S sensor removes practically all cross-channel interference
- Large buttons and high-contrast screen make operation easy in low-light conditions
- Ribbed rubber housing provides secure grip and high durability
- Unit features 95+ db alarm and ultra-bright LEDs
- Exclusive end-of-sensor warning cautions user when unit's sensor needs to be changed
- MotionAlert option tells others that user has become immobile InstantAlert provides manual alarm to alert others of a dangerous situation

Manufacturer: MSA

Part Number: 10110444

GAS DETECTION

ALTAIR 5X MULTIGAS DETECTOR

The rugged, multi-featured ALTAIR 5X Multigas Detector boasts several options that provide maximum safety and make it easy to use in even the most demanding situations. It features large buttons for easy use, and its polycarbonate housing protects the detector for drops of up to 10 feet. The detector also boasts the exclusive MotionAlert™, which lets others know if the user has become immobile, and InstantAlert™, a manual alarm that alerts others if a dangerous situation has arisen. The glow-in-the-dark housing makes it easy to see in a confined space, while the large buttons and bright display makes operation possible even when the user is wearing gloves.

- Rugged detector tests levels of LEL, oxygen, carbon monoxide, hydrogen sulfide and sulfur dioxide
- Rapid bump test gives results in under 15 seconds
- Versatile MSA Link™ allows user to transmit data to a computer
- MotionAlert option tells others that user has become immobile
- InstantAlert provides manual alarm to alert others of a dangerous situation
- Large buttons and bright display provide easy operation, even when user is wearing gloves
- Durable XCell sensors last longer than 3 years• Strong glow-in-the-dark housing protects detector for drops of up to 10 feet
- Exclusive end-of-sensor warning cautions user when unit's sensor needs to be changed• Polycarbonate housing is both dust-tight and water-tight

Manufacturer: MSA

Part Number: 10116928

ALTAIR PRO SINGLE-GAS DETECTOR

- Gas concentration (ammonia, carbon monoxide, chlorine, chlorine dioxide, hydrogen cyanide, hydrogen sulfide, nitrogen dioxide, phosphine and sulfur dioxide) or percent oxygen displayed on a large, clear, backlit LCD
- Unit detects CO, H2S, O2, NH3, Cl2, ClO2, NO2, SO2, HCN and PH3
- Automatically records the last 50 alarm/test events while simultaneously recording peak gas readings or low O2 readings every three minutes in a periodic data log
- User can read data or change alarm set points by connecting unit to MSA Link via built-in IR communication port
- Adjustable alarm set points
- No-miss quad alarm system includes bright flashing LEDs, piercing audible alarm, LCD notification, and an internal vibrating alarm
- Rubberized armor housing and one-button operation for maximum durability and simplicity
- Easy alarm check, bump check, fresh air zero, and calibration
- Easily replaceable batteries and sensors

GAS DETECTION

ULTIMA XE GAS DETECTOR

The Ultima XE Gas Monitor offers the latest in mechanical and electrical technologies for the continuous gas monitoring of combustible and toxic gases, as well as oxygen deficiency. HART Field Communications Protocol provides increased sensor data, part of cost-effective asset management. HART also provides convenient setup, calibration, and diagnostics. Calibrate, set up or perform diagnostics with HART from any point along the 4-20mA line. HART allows for existing component install and wiring to be used, reducing installation costs.

- Explosion-proof 316 stainless steel.
- Multiple-entry mounting enclosure.
- Type 4X, IP66.

Manufacturer: MSA

Part Number: ULTIMA XE-(CAT)LELULTIMA XE-H2SULTIMA XE-TOXIC

ULTIMA XIR GAS DETECTOR

The Ultima XIR Gas Monitor offers:

- DuraSource Technology for improved IR sensor life.
- 316 stainless steel.
- Multiple-entry mounting enclosure.
- Fast response time.
- Operation based on dual-wavelength, heated-optics technology, providing definitive compensation for temperature, humidity, and aging effects.
- IR technology for excellent long-term stability, eliminating the need for frequent calibrations.
- Sintered disk-free design for optimum performance in harsh environments.
- No-gas calibration; only zero adjustment is required for full calibration.
- Type 4X, IP66 rating.

Manufacturer: MSA

Part Number: ULTIMA XE-IR LELULTIMA XE-IR CO2

GALAXY AUTOMATED TEST SYSTEM

The GALAXY® Automated Test System is the simplest way to test MSA instruments. No user intervention, computer, or network interface required—just place the instrument in the test stand and the GALAXY performs the test automatically. Or view data of a network-enabled GALAXY on any Web browser. Test capabilities include calibration and bump check records, due date for instrument calibration, and the ability to directly email MSA support.

- Completely standalone-no user intervention, computer, or network interface required
- Optional network interface available for wired (Ethernet) networks
- Available for Solaris® Multigas Detector, Sirius® Multigas Detector, ALTAIR® Single-Gas Detector, and ALTAIR® Pro Single-Gas Detector

Manufacturer: MSA

Part Number: GALAXY-ALT4-STD

Galaxy STD Altair 4 for 4 Gas, Regulator 1 Cylinder Holder Global Charger

GALAXY-ALT5-STD Galaxy STD Altair 5 for 4 Gas, Regulator 1 Cylinder Holder Global Charger

EVOLUTION TIC 5800

Delivering High Sense quality even in high temperatures, the EVOLUTION 5800 Thermal Image Camera offers best-in-class image quality from four times the picture elements (compared to previous TIC designs). A 3.5" display makes multi-user viewing easier. Displays twice the Low Sensitivity image quality in the 320° to +1000° F range, for high-quality imaging. Backed by an industry-first two-year Camera Warranty.

- Unparalleled imaging-twice the low Sensitivity and image quality in the 320° to +1000°F range.
- High sensitivity with high-image definition over the widest temperature range-up to 320°F compared to competitors' <200°F
- 3.5" display for increased multi-user viewing
- Standard 2x digital zoom
- Consistent operation with earlier models to simplify training
- Two-year camera warranty-best in the industry

Manufacturer: MSA

Part Number: 10097334

A stylized, abstract illustration of a cabinet's internal mechanism, rendered in vibrant red and yellow colors against a black background. The illustration shows various mechanical components, including what appears to be a handle mechanism, a locking system, and internal panels, all depicted with clean, geometric lines and flat colors. The overall style is modern and industrial.

Cabinets

MASS 50 II TROLLEY SYSTEM

The MSA MASS trolley systems are an insulating and non-autonomous Personal Protective Equipment (as it depends on a hose supplying breathable air to the user) for respiratory protection, independent from the environmental atmosphere.

- Works inside tanks
- Cleaning of basins containing sewage sludge
- Firemen for rescue interventions in contaminated environments, for example in tunnel, ships, wells, to the aid of people unable to move, by using them, if necessary, as air supply with anti-contamination overalls provided with a air supply hose

Manufacturer: MSA

Part Number: M0018642 - 2 x 9ltr Cylinders, c/w 40mtr Air Hose
M0023267 - 1 x 50ltr Cylinder, c/w 40mtr Air Hose
M0023268 - 2 x 50ltr Cylinders, c/w 40mtr Air Hose

FLAMMABLE STORAGE SAFETY CABINETS

Keep flammable liquids near work areas in Eagle Safety Storage Cabinets. All are constructed of 18-gauge steel. Sides, top, bottom, and doors are double-walled with a 1 1/2" air space between walls. Both vents, with 2" threaded fittings, have fire baffle and cap. Cabinets come in yellow high gloss powder finish with red warning, plus grounding attachment, 3-point key lock, and 2" raised, leakproof door sill. Each shelf is adjustable, supported by 4 brackets, and can support 350 pounds.

Manufacturer: Eagle

Part Number: 1900 - 2 gal./17.5"x18"x17.25"/66 lbs.
1903 - 4 gal./17.5"x18"x22.5"/74 lbs.
1924 - 12 gal./23"x18"x35"/126 lbs.
1905 - 16 gal./23"x18"x44"/152 lbs.
3010 - 30 gal./43"x18"x44"/231 lbs.
4610 - 48 gal./23"x34"x65"/315 lbs.
6410 - 60 gal./43"x34"x44"/327 lbs.
9010 - 90 gal./43"x34"x65"/434 lbs.

ACID / CORROSIVE SAFETY CABINETS

For use in storing small containers up to 5-gallon capacity of flammable and non-flammable acids and corrosive liquids. All interior and exterior surfaces, including shelves, are finished with blue epoxy powder coating. This type finish is superior to epoxy painted or enamel painted surfaces. Powder coating gives superior protection against chemical attack in event of a spill or splash. For additional protection, each cabinet is supplied with high density polyethylene trays for the shelves and bottom of cabinet. Not recommended for use with Sulfuric, Nitric or Hydrochloric Acid. EAGLE Poly Acid-Corrosive Cabinets are suitable for use with these acids.

Metal cabinets meet NFPA Code 30 and OSHA requirements.

Manufacturer: Eagle

Part Number: CRA

CABINETS

PAINT & INK SAFETY CABINETS

FM approved cabinets for safely and securely storing and organizing paint and ink cans. These cabinets include all the features of other Eagle cabinets and are available in red and yellow with additional shelves to maximize storage space. Capacity is based on the number of 1 gallon paint containers the cabinet will hold. • Galvanized steel shelves, adjustable on 4.75" centers, support 350 pounds.

- Galvanized steel leveling legs
- Internal and external welded 18 gauge steel double wall panel construction with 1.5" air space
- 2" raised leakproof sill
- 2" vent with fire baffle and cap
- Ground connection
- New 30 Gallon models are designed to store 30 - 1 gallon paint cans or 252 - 12oz. aerosol cans.

Available in red and yellow finishes with manual or self-closing doors.

See tables below for model numbers and specifications.

Meet OSHA and NFPA Code 30 Specifications

Self-closing models meet UFC 79

Manufacturer: MSA

Part Number: PI

PESTICIDE SAFETY CABINETS

Eagle PEST cabinets provide needed protection for companies who specialize in lawn care, golf course management, agricultural interests or who handle and store pesticides and poisons.

- Galvanized steel shelves, adjustable on 4.75" centers, support 350 pounds.
- Galvanized steel leveling legs
- Internal and external welded 18 gauge steel double wall panel construction with 1.5" air space
- 2" raised leakproof sill
- 2" vent with fire baffle and cap
- Ground connection
- Lead free high gloss polyester hybrid baked on finish
- 3 point key lock doors
- Large FLAMMABLE - KEEP FIRE AWAY and PESTICIDES label.
- Metal cabinets meet NFPA Code 30 and OSHA requirements.

Manufacturer: Eagle

Part Number: PEST

DRUM STORAGE SAFETY CABINETS

Keep 55 gallon drums close to your work area and safely contain flammable liquids or hazardous waste. EAGLE drum cabinets give you the choice between horizontal or vertical drum storage. The vertical cabinets are available for one or two drums and feature a convenient half shelf for additional storage space for accessories or containers. Drum storage cabinets come with drum supports and Haz-Drum cabinets include drum rollers for easy drum handling. Model 1957 drum cabinet ramp makes loading and unloading much easier. Cabinets come with large FLAMMABLE - KEEP FIRE AWAY and HAZARDOUS WASTE labels. Compliance: NFPA Code 30 and OSHA 29 CFR 1910.106(d)(3)

Manufacturer: Eagle

Part Number: HAZ

HURRICANE SPILL KIT 95 GALLON

CEP's spill kits are perfect for any and all disaster preparedness situations. They contain the finest quality products for oil only or universal spill control and are fully customizable!

KIT includes

- 10 - Universal Sorbent pads
- 4 - Universal Booms 5"x10'
- 2 - Pair Goggles
- 2 - Pair Nitrile Gloves
- 1 - Disposable Coverall
- 1 - AM/FM Radio
- 4 - Batteries
- 1 - Disposable Bag
- 1 - Tarp
- 1 - 20' Rope
- 2 - Lightsticks
- 1 - 20'x100' PolySheeting
- 1 - Emergency Response Guide
- 1 - FlashLight w/batteries
- 1 - Overpack Wheeled 95 Gallon

Manufacturer: CEP

Part Number: STORMSK95

POLY OVERPACK SALVAGE DRUM (65 GALLON)

Just the right size for 30-gallon drums!

Our Poly-Overpack 65 meets Group 1 packaging standards, salvage drum regulations, and is designed to fit 30-gallon drums. This overpack nests for easy storage and has a gasket in the lid for secure containment. No wasted space! No wasted money! Meets performance-oriented packaging requirements of U.S. DOT and UN regulations. Great as a spill kit container, too! It's light enough for one person to handle and large enough to pack sufficient absorbent and response equipment for incidental spills.

Dimensions (Exterior/Interior):

- Top Diameter 28.25"/72 cm 23.5"/60 cm
- Bottom Diameter 23"/58 cm 21.75"/55 cm
- Height 37.37"/95 cm 33.5"/85 cm
- Weight 45 lbs./20.5 kg
- Handling Capacity 440 lbs./198 kg
- Capacity 65 gal./247 liters
- Regulations UN 1H2/X200/S and DOT 49 CFR 173.3

Manufacturer: CEP

Part Number: 1065-YE

POLY-DOLLY ATD WITH ALL TERRAIN WHEELS (95 GALLON)

The common dolly has been rattling around industrial plants for 200 years virtually unchanged in design and function. It has been a good tool, but not efficient enough for handling today's hazardous materials. Poly-Dolly, the multi-functional, two-wheel dispensing station, takes the dolly out of the Industrial Revolution and into the 21st Century.

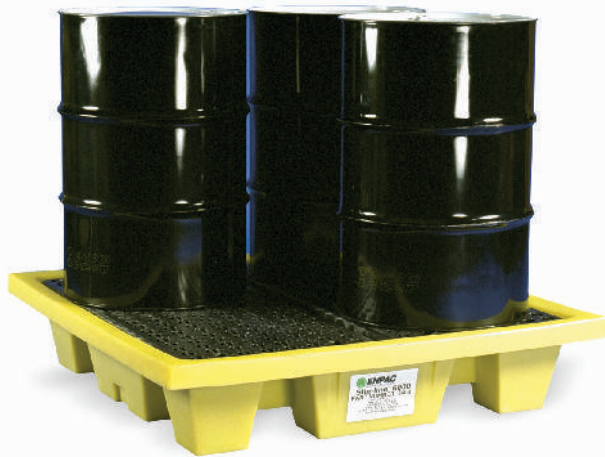

With Poly-Dolly, mobile dispensing of hazardous liquids is no longer a cumbersome, risky business. It transports 55-gallon drums with ease, tilts to become an efficient self-dispensing station, and acts as its own secondary containment unit. By reducing unnecessary and dangerous drum handling, Poly-Dolly protects workers and improves efficiency—two big items in improving profits. Made of long-lasting, tough polyethylene, Poly-Dolly is strong enough to withstand daily bumps and scuffs and will not rust or corrode. That is why companies are saying: "Goodbye dolly. Hello Poly-Dolly."

Manufacturer: CEP

Part Number: 5300-YE-A

CABINETS

POLY-SLIM-LINE 6000 (WITH DRAIN)

Slim is in! Poly-Slim-Line 6000 offers all of the same advantages as our Poly-SpillPallet 6000... and more! This addition to our pallet family features a low, 12" profile and a UDL load bearing capacity of 6000 lbs. Optional drain.

- Dimensions 54" L x 54" W x 12" H 137 cm x 137 cm x 30 cm
- Weight 91 lbs. / 41 kg.
- Load Bearing Capacity UDL 6000 lbs. / 2700 kg.
- Sump Capacity 66 gal. / 250.8 liters
- Regulations EPA 40 CFR 264.175

Manufacturer: CEP
Part Number: 5400-YE-D

WHEELED POLY OVERPACK SALVAGE DRUM (95 GALLON)

ENPAC's NEW Wheeled Overpack™ is the first mobile one-piece Overpackon wheels that can handle 55-gallon drums. A salvage drum and dolly all in one. It eliminates the need for a second dolly for transportation. This 95-gallon polyethylene UN Rated Salvage Drum has the built-in handles and 6" Polyolefin wheels that allow for easy steering through doorways or around any obstacle. Ideal for spillkits!

This item nests for easy storage and has a gasket in the lid for secure containment. It is also light enough for one person to handle and large enough to pack sufficient absorbents for incidental spills!

- Dimensions (Exterior/Interior):
- Top Diameter 32" / 81 cm 27" / 69 cm
 - Bottom Diameter 36" / 91 cm 25" / 64 cm
 - Height 47" / 119 cm 37" / 94 cm
 - Weight 56 lbs. / 25 kg.
 - Handling Capacity 250 lbs. / 113 kg.
 - Sump Capacity 95 gal. / 361 liters
 - Regulation UN / 1H2/X113/S DOT 49 CFR 173.3(c)

Manufacturer: CEP **Part Number:** OP95-WHEELED

RAPID DEPLOYMENT FOR IMMEDIATE CONTAINMENT

Stinger Portable Soft Berms lead the industry in large-scale spill containment. Featuring a wide range of sizes and capacities, our line of stinger portable soft berms can handle any large containment needs you may have. From pallets to tankers the stinger portable soft berms will provide immediate and aggressive spill containment. Stinger portable soft berms deploy and store easily for ease of use. Ground Pad and TrackMat provide additional protection.

- Easy to assemble snap-up design permits immediate response
- Compact storage and transport
- Air-lance tested containment welds for maximum product performance
- Lap joint welds for maximum strength
- Individual serial numbers
- CAD designed and cut components
- Fuel/chemical resistant containment area
- Custom sizes and special materials available

Options include:

- Ground Pad
- Tracmat
- Storage and Transport Bag
- Bazooka Trickle Filter
- Filter System

AIRE

Snap Berm

AIRE SNAP BERM

AIRE QUICK SNAP BERM

AIRE Quick Snap Berms™ are the most versatile secondary containment berms in the marketplace. These portable spill containment berms can be deployed with just one or two people that simply unroll the berm and snap the stays into place. Depending on need, stays can be unsnapped so the end walls of the berm will lie flat for vehicle entry or exit. The Quick Snap drive in, drive out berms are manufactured with a petroleum and chemical resistant heavy duty 30 oz. material.

All berms listed below are also available in 8", 18" or 24" wall sizes.

AIRE QUICK SNAP/FOAM BERM

AIRE Quick Snap/Foam Berms allow drive in, drive out simplicity without removing wall support stays. Non-memory foam ends compress under the vehicle's weight and return to shape after the vehicle has passed. Radius corners and foam pockets offer reduced stress as vehicles enter and exit extending the spill containment berm's service life.
